SUMMARY

Full-Stack Developer with experience building Shopify applications, React.js frontends, and Node.js backend systems using TypeScript, MongoDB, PostgreSQL, and REST APIs.

EDUCATION

Patkar-Varde College, Mumbai University

Bachelor of Science in Information Technology – CGPA: 8.6/10

Mumbai, India

2022 – 2025

EXPERIENCE

Full Stack Developer Intern

March 2026 – June 2026

Axentra OS (Altiss Advance) Pvt. Ltd.

Onsite, Mumbai

- Engineered 25 reusable React.js and TypeScript components for a Warranty Management platform and engineered a 12-page merchant dashboard integrating 22 APIs, delivering analytics for performance, profitability, claims, and operational insights.
- Integrated 9 Ekart Logistics APIs for order creation, shipment tracking, shipping cost calculation, serviceability checks, reverse and exchange order processing, and webhook-driven status updates; implemented fallback handling for unexpected API responses and collaborated with the Ekart team to validate integrations using test environments and dummy data.
- Created a Shopify Theme App Extension enabling merchants to customize navbar icons and redirect URLs directly from the Theme Editor, implementing SVG replacement, Shadow DOM support, and multi-theme compatibility.
- Built a Membership & Rewards portal comprising 7 responsive sections and 4 API integrations, alongside a subscription management feature within Shopify's theme architecture.
- Automated customer engagement workflows using Django, implementing cart abandonment, wishlist activity, and cart notification email systems for Shopify stores.

Junior Software Developer Intern

April 2024 – June 2024

Custom Technologies Design Lab Pvt. Ltd.

Onsite, Mumbai

- Identified and resolved 20+ gameplay bugs by collaborating with the development team using issue-tracking tools, improving overall application stability.
- Supported VR feature testing and integration, contributing to smoother user interactions and a more polished end-user experience.
- Integrated RESTful APIs and managed frontend-to-backend data flow, ensuring reliable communication between application layers.
- Utilized Git and GitHub for version control, branch management, issue tracking, and collaborative development workflows.

PROJECTS

Peeltalk – Real-Time Social Chat Platform | *React.js, TypeScript, Node.js, Express.js, Socket.io, MongoDB*

Live

- Created Juice Connect, a one-to-one anonymous chat feature supporting real-time messaging, replies, reactions, and instant disconnection without requiring user registration.
- Built ChatPit, a topic-based group chat system secured through Google OAuth authentication, enabling community discussions while preventing fake account creation.
- Facilitated 200+ real-time user connections and onboarded 80+ registered users through responsive chat experiences, blog publishing capabilities, and optimized state management.

Task Management Platform with MCP Server | *React.js, TypeScript, Node.js, Express.js, MongoDB, MCP SDK*

- Architecting a full-stack task management platform featuring a React frontend, REST APIs, and an MCP (Model Context Protocol) server that enables AI clients to create, retrieve, update, and delete tasks through tool-based interactions.
- Designed a shared service layer used by both REST endpoints and MCP tools, ensuring consistent business logic while eliminating code duplication.
- Added task search, pagination, request validation, centralized error handling, and MongoDB data persistence to support reliable task management workflows.
- Enabled AI-assisted task operations through MCP-compatible clients while maintaining a responsive user interface.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Django, REST APIs, JWT, Socket.io, fastAPI, SQL

Shopify: Shopify CLI, Theme App Extensions, App Embed Blocks, Storefront Customization, Liquid (familiar)

Databases: MongoDB, PostgreSQL, Prisma ORM

Tools: Git, GitHub, Postman, VS Code, Docker, Figma

CERTIFICATIONS

Python Programming Certification | TCS iON Career Edge
